

Acton Nature Center Great Backyard Bird Count

February 19 & 20th, 2022

Meet at the Acton Nature Center Parking Lot at 7:00 a.m. on each day to participate in bird walks that will inventory birds for the Great Backyard Bird Count.

Walks will last from 7:00-10:00 a.m. and will include stops at the ANC bird blind as well as other unique habitats.

On the 19th Dr. Billy Teels will give a presentation at 10am in the Farm House Education Center. The topic will be "What's in a Name- Changes to the Bird list".

The talk will entail a brief discussion of the list's history, the concept of a morphological vs. biological species, and recent proposals to amend the list for several well-known birds.

Bring your binoculars and join in the fun!
